**Transitional Assistance & Design Team Volunteers with Leading Non-Profit Developer of Affordable Housing**

***Team Members Assist with Packing and Preparing for Food Distributions for Families In Need***

Gaithersburg, MD (December 1, 2010) – The [Transitional Assistance & Design](#) team volunteered their time and expertise to assist Manna, Washington, DC’s leading non-profit developer of affordable housing for ownership. The team assisted by packing and organizing boxes of donated food items at Manna’s warehouse. Manna will distribute these to many families in need across the metro area.

Manna’s staff appreciated having the Transitional Assistance & Design team sharing their expertise and lending hands-on help with organizing and packaging a plethora of donated food items. The team worked in two shifts to tackle the task.

*Transitional Assistance & Design team volunteers at the Manna warehouse*

Transitional Assistance & Design team members are experts when it comes to packing boxes for their moving services, so filling boxes of food items, as well as organizing Manna’s warehouse, was a great way to leverage their expertise and help Manna efficiently fulfill its mission of serving others in the community. Team members made the most of the opportunity and were able to apply the unique organization and packing processes Transitional Assistance & Design uses when moving its clients from one home to another.

Manna has been helping low and moderate income persons acquire quality housing, build assets for families through homeownership, revitalize distressed neighborhoods, and preserve racial and ethnic diversity for nearly three decades. It collects and stores donated non-perishable food items to distribute to families and households in its warehouse.

Transitional Assistance & Design is one of the longest serving move Management companies in the greater Washington, DC region.

“We are grateful for the opportunity to help organizations like Manna that are making an impact in our community,” said Susie Danick, founder and co-owner of Transitional Assistance & Design. “Our team is one of the most efficient teams when it comes to packing moving boxes, so to lend a helping hand to Manna by packing boxes of food for others was a rewarding experience for the Transitional Assistance & Design team.”
